

Sjaak van der Vijver

New "Live View Webshop" for Cut Flowers & Plants

For over 25 years, Sjaak van der Vijver BV have specialised in the export of an extensive range of cut-flowers and plants to regular customers worldwide.

Benefits include our new 'Live view' Webshop system, so 'what you see is what you get'. You will also be able to shop at a time to suit you – even from home!

We understand that you may already have accounts elsewhere, but can you afford NOT to look at what we are offering? It costs nothing to apply for an account.

We look forward to welcoming you as one of our new clients in the near future.
